Wall Washer Strip light

Description

- PU material: anti-yellow: High temperature durable; corrosion resistance; weak acid and alkali resistance; good flexibility.
- PU glued, strong adhesion, good durability and high reliability.
- It can replace the traditional aluminum heavy wall washer or LED light bar due to its small size light weight, flexible and easy to install.

Surface Mounted

TECHNICAL DATA SHEET - JUNO - 19422 - WALL WASHER STRIP LIGHT

TECHNICAL DATA

Product Data	Wall washer strip light
Lamp Type	PHILIPS LED
LED Qty	56led/mtr
Wattage	12W/mtr
Color Temperature	4000K
Rated Luminaire Luminous Flux	1440lm
Rated Luminaire Efficiency	120lm/W
IP Rating	67
Beam Angle	30°
Voltage	DC24V
Frequency Range	50-60 Hz
CRI	Ra>90
Power Factor	>0.9
Humidity	0-95% non condensing
Working Temperature	-25°C~+55°C
Material	PU
Lens	PMMA
Finish	White
Life Span	50,000 Hours
Warranty	5 Years
Applications	Outdoors, Residential, Commercial, Hospitality etc.

TECHNICAL OPTIONS

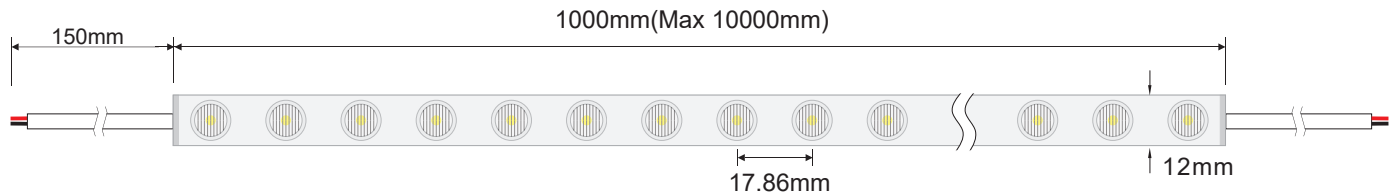

Wattage	70W/140W
Color Temperature	3000K, 6500K
Control	Switchable, TRIAC, 1-10V, Dali

Cautions

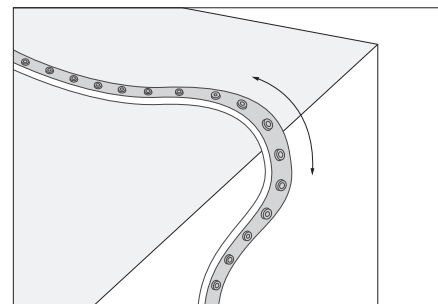

CORRECT OPERATION

During the installation process, the LED wall washer is taken out from the reel naturally and keep it as straight as possible.

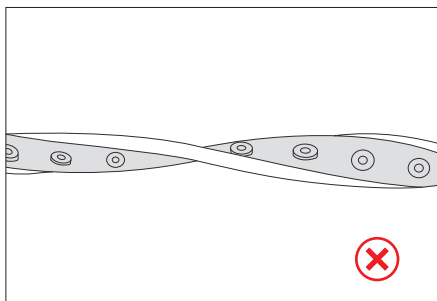

The LED wall washer should be kept vertical or horizontal during the installation process.

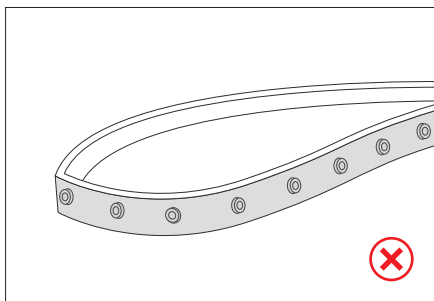

When LED wall washer meets the corner during the installation process, the LED wall washer must be kept facing up and the back facing down, maintaining a certain bending arc, $\Phi \geq 150\text{mm}$.

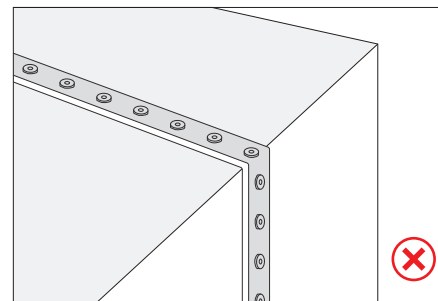

WRONG OPERATION

Do not twist the LED wall washer during the installation process.

Do not fold the LED wall washer in half or bend it at a small angle during the installation.

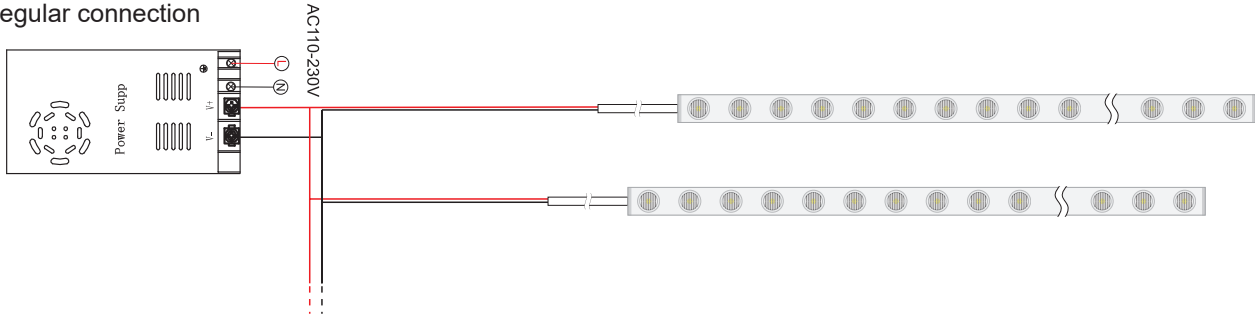

When the LED wall washer meets the corner during the installation process, the LED wall washer must be kept facing up and the back down, and it cannot be bent at right angles.
